Mr. Hickman said:

Mr. President and Gentlemen:-There was a time not very far back in the past, when Slavery was universalwise in practice, detrimental to both individuals and communities, and against the spirit and genius of our free system. Now, however, it is declared to be divine in its origin, the highest type of human civilization, and indispensable to the maintenance of a democratic republic. Formerly it was regarded as a condition to be constantly reduced, and finally to be extinguished. Now, on the contrary, the demand is urged that it shall be extended, and made controlling. Here I find the cause or source of the great political issue of the present. Shall slavery become a national institution and a governing power in the country, or shall it remain as the Constitution left it? This is not an inquiry propounded by us of the North, but forced upon us by our brethren of the South. They require an answer at our hands, and we can not avoid a response if we would. Silence upon our part, under the cirour new States; for two objects: first. to secure the value of slaves, and second, to direct the powers of the Fed-

eral Government. 'The irrepressible conflict," so freand acted on by them. They are too astute as observers, and sagacious as essary and unending antagonism between liberty and slavery. If they thought differently, there would be far sections. It is their full appreciation the advocates of slavery seek its extension so as to limit the influence of the An omnibus will convey travelers to anny, and would prevent such a consummation. They ask that all who
